Education

JK Lakshmipat University, Jaipur — 2024 – Present
B.Tech in Computer Science and Engineering (Fifth Semester) — **CGPA:** 7.4

Projects & Experience

Freelance Web Developer **(August 2026 – Present)**
Git, GitHub, HTML5, CSS3, JavaScript

- Work on live production repositories and managed codebase updates using Git version control and GitHub workflows.
- Diagnosed, debugged, and resolved frontend layout, responsiveness, and functional bugs across multiple site pages.
- Developed and deployed client-requested feature additions and UI updates based on specific operational requirements.

Campus Hackathon Database Management System **(November 2025)**
MySQL, Database Design, ER Modeling

- Architected relational schemas and Entity-Relationship (ER) diagrams to organize hackathon operations efficiently.
- Developed core database functionality using MySQL to streamline participant registration, team allocation, and scoring.
- Built scalable data management protocols to assist university administrators and private event organizers.

Pradhan Mantri Fasal Bima Yojana (UI/UX Redesign) **(November 2024)**
Figma, Framer, Web Design

- Conducted complete UI/UX analysis and redesigned the government insurance portal interface using Figma.
- Developed and deployed an interactive, responsive live prototype and improved visual hierarchy and web accessibility while maintaining all core functionality inspired by the official portal.

Technical Skills

Languages: C, C++, Python, MySQL, VHDL

Developer Tools: Git, GitHub, VS Code, Framer, MySQL Workbench, Unreal Engine

Core Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Organization, Optimization for CS

Domains & Interests: Web Development, Game Development, Machine Learning, Computer Vision

Soft Skills

- **Collaborative Leadership:** Adept at guiding project teams, delegating tasks, and fostering a cooperative environment.
- **Research & Analysis:** Experienced in conducting thorough feasibility studies to support project requirements and execution.
- **Quality Assurance:** Committed to delivering high-fidelity, bug-free outputs and maintaining excellence across project lifecycles.
